

GREEN ADVENTURES CAMP 2011  
Daily Field Plan

**Monday 7/12**

**Lesson:** Michigan Geology

**Field Site:** Waterloo Recreation Area, Eddy Center, gravel pit

**Concepts / Topics:** Michigans Landscape  
Glaciation  
Local geology  
Rocks as a resource

**Transport:** bus

**Required Materials:** collection buckets, hand lenses

**Activity Plan:** Camp will travel together to explore gravel pit and collect rock specimens (create smaller groups at site.) Visit Eddy Center for brief program and tour exhibits.

**Classroom Connections and Extensions:**

[Gerald E. Eddy Discovery Center](#)

**Collections**

**Classification**

Students classify own collections and/or teachers collection and/or collections from field  
Students do presentations on why they classified the way they did

**Scientific Sketching**

See what you draw. List and think about details before you draw. Attach a real thing to sketch. Make a whole group sketch book

Use classification words

Model a sketch/invite an artist to visit

**Journaling**
